

CollaborateX

- Academic Collaboration Platform
- Presented by: Paballo Moipone Litabe

Introduction

- Educational institutions require efficient platforms.
- Traditional communication is fragmented.
- CollaborateX centralizes collaboration.

Problem Statement

- Poor communication
- Limited collaboration
- Scattered resources
- Difficult coordination
- No centralized platform

Project Objectives

- Main objective: Develop platform
- Improve collaboration
- Share resources
- Support projects
- Encourage discussions
- Intuitive UX

Technologies Used

- HTML5
- CSS3
- JavaScript
- Git
- GitHub

- Font Awesome
- Google Fonts

System Features

- Home
- About
- Resources
- Projects
- Forums
- Contact
- Responsive Design
- Modern Interface

System Architecture

- Users
- Web Browser
- CollaborateX
- HTML • CSS • JavaScript

User Interface

- Home Page
- About Page
- Resources
- Projects

Responsive Design

- Desktop
- Tablet
- Mobile

Benefits

- Better communication
- Easier collaboration
- Resource sharing
- Improved productivity
- Professional UX

Challenges

- Responsive interface
- Consistency
- Navigation
- Usability

Testing

- Navigation - Pass
- Responsiveness - Pass
- Browser Compatibility - Pass
- UI Layout - Pass

Future Improvements

- Database
- Authentication
- Dashboards
- AI Chatbot
- Notifications
- File uploads
- Messaging

Conclusion

- Objectives achieved
- Skills gained

- Benefits
- Future potential
